TECHMEETUPS MOBILE APP EXPO

Due to the demand for Mobile Applications and the tremendous growth over the last few years Techmeetups.com has partnered with Service Design Consultancy - Seren & Mobile App Development Specialists Ciklum to bring you the Techmeetups Mobile App Expo on the 9th of June 2011.

If you are a tech start-up or established company and were looking for the next hot area look no further. Mobile Applications are poised to hit the \$9billion mark by 2011 and only one way to go !

Juniper Research predict the market to touch \$25billion in 5 years time !!

From Mobile Search, Browsing, Health monitoring, Money transfer & payments, advertising, instant messaging and location based services the possible areas are endless.

With the App store war intensifying there are more channels to promote your Applications - Apple AppStore, Blackberry AppWorld, Nokia Ovi Store, Android Market, Samsung Apps, Palm App Catalog, Windows 7 Marketplace and even Browsers with Opera Mobilestore.

More funds are now available for Mobile Application development —\$150m Blackberry, \$200m iFund from Apple, \$100m iFund from KPC & Byers \$100m \$100m Android Fund from DCM are some of the well known ones.

If you have an idea or an Application and would like to find a developer who can develop it for you or a VC that can fund it or a partner that can help monetise it Techmeetups June Meetup is the place to be.

[We have limited spots for companies that want to present their mobile App solutions . If you're interested click here or drop us a line.](#)
